Mounts & Bases

NEW one-piece 'Roll-Off' mounts, high and low, in two mid tube sizes, are now available, precision engineered on CNC machining centres from aircraft quality alloy and satin anodised for a non-glare finish.

Split ring 'Roll-Off' mounts, made from the same super tough light alloy are now available in 1", 26mm and 30mm tube sizes.

We have expanded the range of .22 cal and air rifle mounts to include a high gap mount TS25H for 2" (56mm) dia objective lens scopes, a new one-piece 1" tube mount with full length clamp (List No YS-26) which represents exceptional value for money and a recoil arrestor type mount (TS25-45) with adjustable clamps for the wider (17mm) type dovetails.
